3. DESIGN SYSTEM (FINALISED)

Colour Palette

Role	Hex	Usage
Page background	#0B0B0B	All sections
Secondary bg layer	#121212	Cards, panels
Primary accent (gold)	#8A7F06	Borders, eyebrow text, dots, column titles
Hover accent (gold)	#A89A0A	Button hover states
CTA button bg	#8A7F06	"Get in Touch" button
Primary text	#F5F5F5	Headlines, body
Secondary text	#B0B0B0 / rgba(245,245,245,0.42)	Nav links, subdued copy
Muted text	rgba(200,192,172,0.65)	Taglines, italic copy

Note: User originally suggested

#8A7F06

 and

#7C7306

.

#8A7F06

 was adopted as it performs better on dark bg. Do not use user's alternative

#7C7306

 — too dark/olive for screen.

Typography

Role	Font	Weight	Letter Spacing	Notes
All headlines / titles	Cinzel	400	+0.03-0.04em	Loaded via Google Fonts
Body / nav / labels	Inter	300, 400, 500	+0.04-0.32em (contextual)	Loaded via Google Fonts
Eyebrow labels	Inter	400	+0.28-0.32em	Uppercase, 9.5-10px
Nav links	Inter	400	+0.22em	Uppercase, 10.5px
CTA button	Inter	500	+0.2em	Uppercase, 10-11px

Role	Font	Weight	Letter Spacing	Notes
Legal / footer fine print	Inter	300	+0.06-0.08em	10-10.5px

Google Fonts import string (use in every embed):

```
html
<link href="https://fonts.googleapis.com/css2?family=Cinzel:wght@300;400;500&family=
```

Design Language

- **Aesthetic:** Quiet luxury / institutional finance — reference: Asante Capital
- **Tone:** Restrained, no visual clutter, no stock imagery of handshakes
- **Overlays:** Always layered (base dark + radial vignette + bottom fade + top fade)
- **Accent elements:** Thin 1px gold lines, corner bracket marks, small dots — used sparingly
- **Animations:** Fade-up on load (staggered), slow Ken Burns zoom on hero bg image, scroll bobbing indicator
- **No:** Centre-aligned everything, bright gold everywhere, obvious AI aesthetics, clutter

4. LOGO ASSETS

Logo files provided by user:

File	Content	Notes
Screenshot_2024-06-03_120546.png	Bull + "SMS INVESTMENTS" text, black bg	Original — not in use
bull_only.png	Bull silhouette only, black bg	Active — used in all sections

Logo rendering technique (critical):

The PNG has a dark/black background. To make it appear transparent against the dark nav:

```
CSS
```

```
.nav-logo {
  mix-blend-mode: screen;
  filter: brightness(1.15) contrast(1.05);
}
/* Parent must have: */
.nav-logo-wrap {
  isolation: isolate;
}
```

`mix-blend-mode: screen` dissolves dark pixels so only the gold bull is visible. This is the only viable approach without a true transparent PNG.

Recommendation for future: Export a proper transparent-background PNG of the bull from the original source file. Will look cleaner than the blend-mode workaround.

5. SECTIONS BUILT SO FAR

 5. Internship Programme
-

7. KEY DECISIONS & RULES FOR CONTINUATION

1. **Always start each new code block** with the Google Fonts import for Cinzel + Inter
 2. **Logo rendering:** Always use `mix-blend-mode: screen` + `isolation: isolate` on parent
 3. **Background colour:** Always `#0B0B0B` — never pure `#000000`
 4. **Gold accent:** `#8A7F06` primary, `#A89A0A` hover — use very sparingly
 5. **Text colour:** `#F5F5F5` primary, `rgba(245,245,245,0.42)` for subdued
 6. **No background images in embed code** — user sets images in Wix section background
 7. **Each section = one separate HTML file** — do not combine sections
 8. **Wix embed method:** Add → Embed Code → Custom Embeds → Embed a Widget → Enter Code
 9. **Footer sub-links:** Currently intentionally empty — user may populate later
 10. **Nav pages:** About · Capabilities · Internship · Newsletter + "Get in Touch" CTA
-
